In tandem with Pasadena Villa's Social Integration Model™, we use multiple therapeutic modalities including:

- DBT (Dialectical Behavioral Therapy)
- CBT (Cognitive Behavioral Therapy)
- ACT (Acceptance and Commitment Therapy)
- EMDR (Eye Movement Desensitization and Reprocessing)

- LEAP (Listen, Empathizes, Agree, Partner)
- Seeking Safety
- Matrix Model

Our caring professionals partner with clients and families to design a customized treatment plan specific to each client's unique needs using four primary clinical pathways that incorporate social integration and our therapeutic modalities.
