Pasadena Villa Overview

Admissions and Referrals 866.482.1963

WHO WE ARE

For over 25 years, Pasadena Villa has treated mental health conditions for all genders ages 18 and older, along with a specialty residential program for autistic clients. Pasadena Villa doesn't just focus on the presenting condition, but rather on the underlying disorders by utilizing a comprehensive whole-person approach that serves at the foundation for true client-centered care.

WHAT WE TREAT

Pasadena Villa specializes in the following conditions and disorders:

- Anxiety Disorders
- Mood Disorders
- Thought Disorders
- Autism Spectrum Disorder/
Asperger Syndrome
- Co-occurring Substance Use Disorder
or Addiction
- Psychosis
- Underlying Trauma

OUR METHODS

We offer five primary clinical pathways, including: Mood Disorders, Thought Disorders, Anxiety Disorders, Autism Spectrum Disorder/Asperger Syndrome, and Co-occurring Disorders.

Our program is firmly rooted in evidence-based treatment methods with treatment plans specific to each client's needs. In tandem with our Social Integration Model™, which enables clients to put skills learned into practice with the support of their therapist, our clinical team uses multiple therapeutic modalities, including:

- Dialectical Behavior Therapy (DBT)
- Cognitive Behavioral Therapy (CBT)
- Acceptance and Commitment Therapy (ACT)
- Eye Movement Desensitization and
Reprocessing (EMDR)
- Psychiatric Medication Evaluation and
Management
- Individual Psychotherapy Sessions
- Family Therapy
- Listen-Empathize-Agree-Partner (LEAP)
- Seeking Safety
- Matrix Model

Additional therapies include:

- Recreational Therapy
- Art and Music Therapy
- Animal-assisted Psychotherapy

BASIS-24 EVALUATION

At Pasadena Villa, we use BASIS-24, a leading behavioral assessment tool, to identify a wide range of symptoms and problems that occur across the diagnostic spectrum using a five-point Likert scale. The 24 questions are scored using a weighted average algorithm that gives an overall score and scores for six subscales for the following domains of psychiatric and substance abuse symptoms and functioning: depression and functioning, relationships, self-harm, emotional lability, psychosis, and substance abuse. Throughout 2020, 512 clients participated in programming at Pasadena Villa with 251 completing the BASIS-24 assessment.

CARE INFORMED BY RESEARCH AND TRAINING

For over 25 years, Pasadena Villa has provided high-quality, evidence-based treatment for our clients with care and compassion. Our staff are highly trained and credentialed in their areas of expertise, and include master's level clinicians. We help clients further their opportunity for recovery utilizing our Social Integration Model™ which focuses on real-world application of the skills learned in treatment while under the supervision of our clinical team.

THE SOCIAL INTEGRATION MODEL™ DIFFERENCE

At the heart of our programs is our Social Integration Model, during which therapists enact real-time therapeutic interventions while their clients experience real-life situations. The Social Integration Model is used to ensure social and life skills treatment concepts are not only presented and reviewed, but are experienced in the moment. Professional guidance is then provided to help clients implement their newly learned skills.
